7	Northern Ireland Movements	Import/Export	The feature introduced in Release 5.2.0 that prevented certain Authorisation Types from being declared on Northern Ireland (NI) declarations will be reverted. Following the reversion of this feature, the system behaviour will return to its pre-4th July state. Authorisation Type Code 'MIB' will not be allowed on export declarations from Northern Ireland where AI Code 'NIEXP' has been declared. If Authorisation Type Code 'MIB' is declared in DE 3/39 and 'NIEXP' is declared in DE 2/2, the declaration will be rejected.

Due to the changes introduced in this release, there may be an impact on prelodged Declarations. Any prelodged Declarations that will arrive on or after the release date that will be affected by the changes in this document will need to be amended to be compliant with these changes or the Declarations will be rejected.
