

Changes have been made to the way you can search for and view import records. Intuitive enhancements have been applied to assist the end-user with the navigation, display and storing of search criteria throughout the screens.

Please note that the former Import Enquiry screen is accessible via transaction code INQ or using the side menu: Imports > Enquiry.

If you have any questions or require further guidance please contact the MCP Helpdesk: Help@destin8.co.uk / 01394 600205.

INQ01 Entry Screen:

This is the redesigned initial screen which is where you will decide which criteria to enter in order to filter the results returned to you in the next screen INQ02 or alternatively generate a CSV output containing the returned search results.

The +Plus symbol against the five main input fields allows you to search for multiples of up to ten, for example, ten Unit Ids. The 'Saved Search Options' link displays a 'Current Saved Searches' clipboard where you can add and rename a new set of search criteria, amend or remove existing saved search criteria.

Import Enquiry Selection Screen

UCN:

To enquire on specific consignments enter one of the following, to restrict your enquiry to one voyage the UVI should also be entered:

Unit ID: +

Bill of Lading: +

CHIEF Entry: +

Vehicle: +

To enquire on one or more voyages enter the UVIs or select a Voyage Option together with an optional Working Port:

UVI: + Voyage Option:

Wrap table text:

These tables enable you to show only the columns you wish to see and the order in which they are displayed.

Name and store these filters for another time!

Select whether you would like to display 10, 25, 50 or 100 UCNs per page of your search.

Each of your desired columns holds a filterable tab at the top.

? The question mark symbol at the top right of the screen is where you can show/hide the customising tools as displayed above.

INQ02 Continued:

UCN	Unit ID	Sz/Ty
544542217	KKFU7653685	4500
544551343	KKFU722852	4500
5445516	66428	4500
5445517	82075	4500
5445517	34696	4500
544551730	KKFU7290070	4500
337362420	TTNU5500630	4310
337362420001	TTNU5500630	4310

In the INQ02 screen you are able to either

- 1) Click on the hyperlinked UCN to view a summary popup screen containing consignment details.
- 2) Right click on the UCN to either be taken directly to the detailed consignment information screen (INQ03) or to RAM release the consignment for haulage purposes.

At the bottom of the INQ02 you will find a toolbar:

From here you can return back to your original search results, send the details to an output device, or clear the filters you have applied. You can also highlight consignment statuses from the columns you have enabled.
